

Line Alignment - "Flex"

Primary "Go To" Player: #2 Shooter

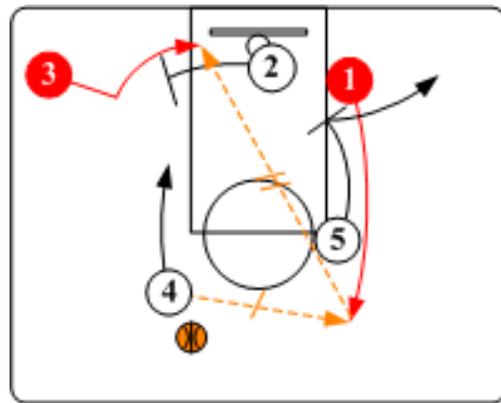

Secondary "Go To" Player: #3 Small Forward

Flex or spots utilizes strong baseline and down screens. The continuous "Pick the Picker" screening action puts a tremendous burden on the defense by having to defend two different types of screens simultaneously. Teams that exhibit good patience will surely create open shots. The Flex continuity is also a good attack against odd front (1-2-2 and 1-3-1) zone defenses.

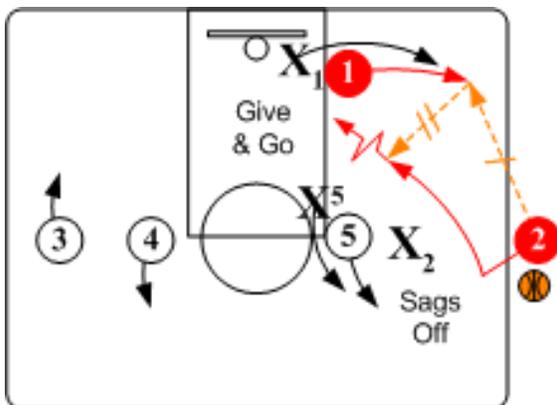

Right Side Entry

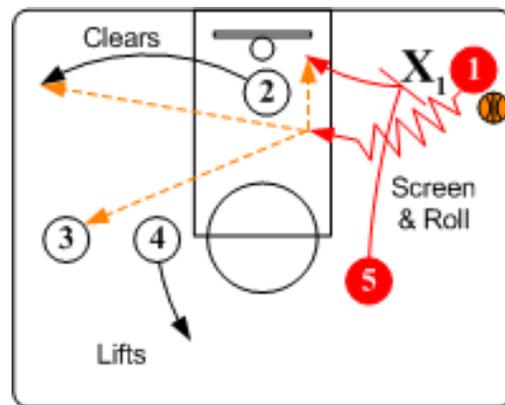

Base Cut. Inbounder O2 makes an inbound pass to O5 and cuts to the basket off O1 baseline screen. O3 spots up for a three point shot in corner. O5 passes to O4 and sets a down screen for O1 initiating "Pick the Picker" action.

Pick the Picker. If/when O4 passes to O1, O5 steps out to corner, and O3 comes off O2's baseline screen. O4 then down screens for O2 on weakside completing the "Pick the Picker" action. If/when O1 passes to O2 the flex continuity repeats.

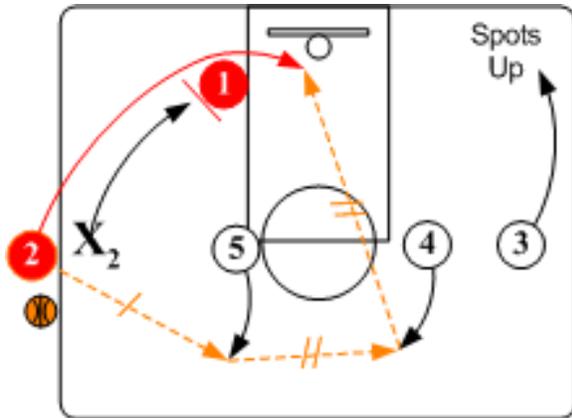

Automatic: Give & Go. If/when the inbounder's defender X2 sags off, O2 has option of executing a quick "Give & Go" cut with O1.

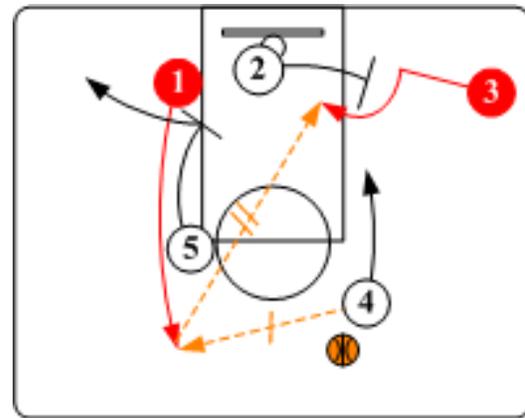

Side Screen Continuity. If O1 does not feed O2 on Give & Go cut, O5 drops down and sets an "On Ball" screen for O1.

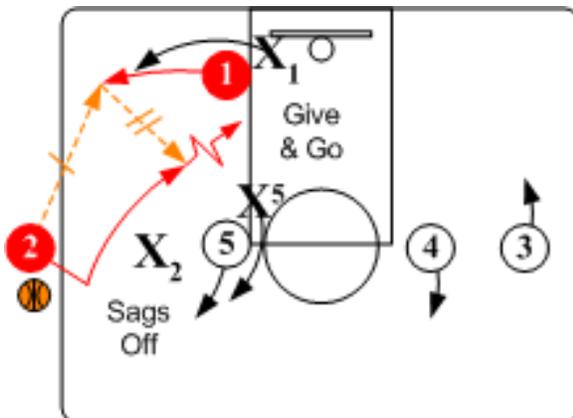

Left Side Entry

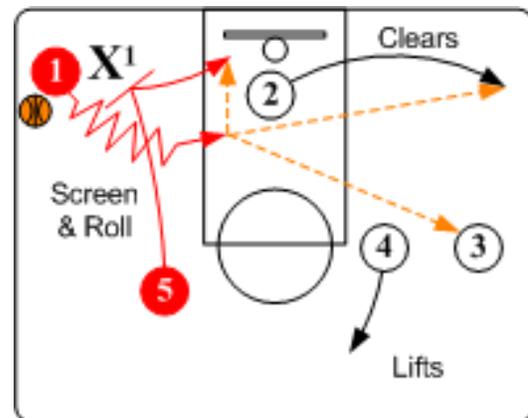

Base Cut. Inbounder O2 makes an inbounds pass to O5 and cuts to the basket off O1 baseline screen. O3 spots up for a three point shot in corner. O5 passes to O4 and sets a down screen for O1 initiating "Pick the Picker" action.

Pick the Picker. If/when O4 passes to O1, O5 steps out to corner, and O3 comes off O2's baseline screen. O4 then down screens for O2 on weakside completing the "Pick the Picker" action. If/when O1 passes to O2 the flex continuity repeats.

Automatic: Give & Go. If/when the inbounder's defender X2 sags off, O2 has option of executing a quick "Give & Go" cut with O1.

Side Screen Continuity. If O1 does not feed O2 on Give & Go cut, O5 drops down and sets an "On Ball" screen for O1.
